M-8810

Functional Walker

New Star Among Cardio Equipment

The unit can be used as treadmill or climbing machine. The stride can be automatically adjusted without manual operation. There are 20 RESISTANCE levels. Diversified horizontal exercises (Climbing up and down; Short run; Squat-style tramping; Medium-stride walk; Long-stride walk; etc.) meet fitness demands of different users.

Details bring nice fitness experience.

Baking varnish used in automobile manufacture is applied to the whole unit. Blue silicon gel handrails are fashionable and generous with high degree of comfort. Touch controls are applied to console screen. Movable grips bring movements of upper limbs and whole body. ABS pedals are durable with longer service life.
