MBH TREADMILL SELECTION

MT-2000

M003

Commercial Treadmill

Display type:LED / TFT

Novel design concept of applying double rear uprights supporting naturally in accordance with fashion design philosophy is adopted to give the unit clean lines, powerful, modest and stable features.

Combing world's popular trend design and innovated fashion, two-sided borderless full screen is applied, enabling user to enjoy audio-visual feast;

Designed from user's perspective with user experience considered, the product demonstrates nobility.

SPECIFICATIONS

Size (mm) : 2302x970x1701

N.W. (kg) : 247

Running Belt Width (mm) : 580

MT-3000

MT-5000

M005

Commercial Treadmill

Phone charging: wireless charging/
USB charging

Lubricate method: automatic oiling

Motor power: 3.0Hp (2.2kw)

Speed: 1-20km/h

Incline: 0-20%

Dimension: 2200×910×1690 (mm)

Running surface: 1530×600mm

Max user weight: 150kg

Smart Application

S600

S600

Commercial Treadmill

Display type:LED

The unique design of S600 offers the optimal durability, performance and stability for trainers.

21.5" LED screen; multi-window display offer a super-wide view for users

Touch control panel is easy to adjust the speed ,incline for the machine when you are running on it.

Shock-absorption design to prevent Injury

Super Wide Handrail and 600mm Super Wide running Belt Space for better running experience

Uprights are made of 185*62mm steel tubes with a very strong support for your running experience.USD charging is available for the treadmill.

SPECIFICATIONS

Size (mm) : 2080x950x1750

N.W. (kg) : 180

Running Belt Width (mm) : 600

K800

K-800

Commercial Treadmill

Display type:LED

The design of K-800 is based on the whole new design concept in Europe and America. Its unique surrounding frame produces the form of a capsule.

The machine is a combination of beautiful shape and stable performance, which characterizes itself out of the common popular machine.

Advanced self-ergulation system enhances the durability of the machine and convenience of using.

Digital signal transmission, which is more accurate, prevents sudden stop and sudden acceleration.

SPECIFICATIONS

Size (mm) : 2200×910×1580

MAKE BODY HEALTHY 18 / 19

U-02

U02

Commercial Treadmill

Compared with traditional lower limbs exercise, exercises provided by this elliptical get more muscle groups targeted to achieve maximum effectiveness while helping to improve cardiopulmonary function. The user experience it brings is distinctly different.

SPECIFICATIONS

Size (mm) : 2200x910x1580

U05

U05

Commercial Treadmill

Adopted self-lubrication system, computer digital transmission system, anti-skidding and deviation running belt ensure the stability and safety.

High-strength running board and qualified inverter, running belt, enhance the durability.

SPECIFICATIONS

Size (mm) : 2200 X 910 X 1650

MS80

S9800A

PN7000

PN7000

Commerical Treadmill

Digital signal transmission, which is more accurate, prevents sudden stop and sudden acceleration.

Adopts diameter 100mm treadmill cylinder to solve the technical difficulties to prolong the motor and cylinder service life and reduce the noise at the same time.

The machine adopts anti-static electricity and anti-electromagnetic technology, which ensures the safety during exercise.
